

Time/Match Record

For time period _____ to _____

We value the time you spend between weekend sessions to complete homework assignments, work on your public policy project, review the packet of resource materials you received and communicate/exchange information with policymakers on disability related issues.

This time is converted to dollars based on your hourly wage if you are employed; or minimum hourly wage if you are unemployed, or working but not receiving at least the minimum hourly wage (\$5.15/hour).

The information you provide in this form helps us meet the match requirement for the grant that funds the Partners in Policymaking program. To the best of your ability, please estimate the time you spend working on each activity.
